Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Saturday 11 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry and cold start, then rain arriving.

Today:
After a dry and cold start, cloud will soon increase, with rain arriving by late morning from the west. This afternoon the heaviest of the rain clears, with cloudy conditions following, along with outbreaks of rain and drizzle. Becoming breezy. Maximum temperature 8 deg C (46 deg F).

Tonight:
Outbreaks of light rain and drizzle, along with widespread hill fog, at first. Later dry conditions, with some cloud breaks developing, will arrive from the north. Winds easing light. Minimum temperature 4 deg C (39 deg F).

Sunday:
Initially dry with bright or sunny spells, but becoming cloudy with patchy light rain and drizzle arriving from late morning. Becoming mainly dry, but windy, later this afternoon. Maximum temperature 12 deg C (54 deg F).

Outlook for Monday to Wednesday:
Monday chance of rain, mainly for southern areas. Tuesday and Wednesday generally cloudy with some patchy light rain or drizzle, especially for the Pennines. Mild, and becoming windy at times.
